AiM InfoTech

10G steering rotary potentiometer for car/bike

Release 1.05
1

Introduction

This datasheet explains how to install the 10 laps (10G) steering rotary potentiometer kit for car, bike installation and shows its electrical and mechanical characteristics. AiM loggers can measure an element rotation (i.e. steering angle) using the rotatory potentiometer kit whose items are to be mounted integral with the mobile element and with a fixed reference point on the vehicle chassis.

2

The kit

AiM designed and developed an installation kit for 10G steering rotary potentiometer for car/bike installations

10G steering rotary potentiometer installation kit includes:

- 1 10G steering rotary potentiometer (1)
- 1 toothed belt (2)
- 2 toothed pulleys (3)
- 1 Allen key (4)
- 1 bracket kit (5)

This kit part number is: X05SNST10G
3
Installation

The steering potentiometer can be connected to any analog channel of AiM loggers. The drawing here below shows the potentiometer correctly installed.
4

Dimensions, pinout and technical characteristics

The drawing there below shows the sensor dimensions in millimetres [inches].

The following images show the pulleys dimensions in millimetres [inches]:
• pulley to be installed on the potentiometer
• 22mm diameter pulley to be installed on the steering wheel for 10G potentiometer

The potentiometer cable ends with a 4pins plastic Binder 719 male connector. Here below it is shown from solder termination view with the related pinout.

The steering potentiometer **electrical characteristics** are:
- nominal resistance: 10kΩ
- tolerance on resistance value: ±5%
- precision (%): 0.030

The steering potentiometer **mechanical characteristics** are:
- mechanical displacement: 3600°
- working temperature range: -55/+125 °C
- power consumption: 500µA
Extension cables

The sensor is sold with a 30 cm cable. Standard length extension cables are available: 0.5 m, 1 m and 1.5 m.

Extension cables part number changes according to their length and to the product the sensor is to be connected to.

Extension cable for connection to:
- MXG/MXG 1.2/MXG 1.2 Strada
- MXS/MXS 1.2/MXS Strada/MXS 1.2 Strada
- MXP/MXP Strada
- MXL2
- MXm
- EVO5
- MXL Strada/Pista/Pro05

Part numbers:
- V02PCB05B; cable length: 500mm
- V02PCB10B; cable length: 1000mm
- V02PCB15B; cable length: 1500mm
- V02PCB20B; cable length: 2000mm
- V02PCB25B; cable length: 2500mm
- V02PCB30B; cable length: 3000mm
Extension cable for connection to:

- Channel Expansion
- EVO4
- EVO4S

Part numbers:
- **V02PCB05BTXG**; cable length: 500mm
- **V02PCB10BTXG**; cable length: 1000mm
- **V02PCB15BTXG**; cable length: 1500mm
- **V02PCB20BTXG**; cable length: 2000mm
- **V02PCB25BTXG**; cable length: 2500mm
- **V02PCB30BTXG**; cable length: 3000mm
