

Data Recording with GPS Speed on MyChron6

How to enable data recording without RPM

Question:

How can I enable data recording on MyChron6 if no RPM channel is available on my vehicle?

Answer:

If no RPM channel is available on your vehicle, data recording has to be enabled directly from MyChron6 following these steps:

- Switch MyChron6 on **and**
- **press immediately and simultaneously** "MENU" and "MEM/OK" buttons
- LED bar starts flashing red.

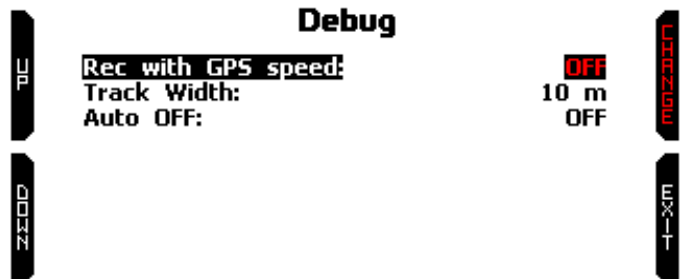

Data Recording with GPS Speed on MyChro6

- As flashing stops press "MENU" button and scroll up to "DEBUG" button.
- Press "ENTER" button

- MyChro6 enters "Debug" page
- Default setting of "Rec with GPS Speed" is OFF
- Press "CHANGE"

- "Rec with GPS speed" is enabled
