PDM32/08

MORE INFO

Type	Description	Part number	Price
Power distribution module	Key features PDM32 and PDM08 Power Distribution Modules are designed to distribute power to multiple circuits on your vehicle, easily replacing traditional fuse and relay systems. Our PDMs, housed in an anodized billet aluminum case, are designed to handle the rigors of motorsport and include a complete professional data logger and internal dash controller. An AiM PDM at the center of vehicle electronics will greatly simplify your wiring harness and electronics installation while providing much more control. User manual & RaceStudio 3 software freely downloadable from AiM web site.

GT32/GT32 Standalone

Type

Steering Wheel

Description

Key features

GT32 is available as expansion for AiM PDM32/08 Power Distribution Modules, another effective device for a complete AiM electronic system. GT32 is also available in completely standalone version that can be connected via CAN to every ECU and masters. Diameter: 320 mm, 1 CAN connection, 10 pushbuttons (all with RGB backlights), 3 rotary switches (all with RGB backlights), 1 Autosport 22 pins male connector, Dimensions: 320 x 178 x 44.2 mm, Weight: 2,600 g, Power consumption: 500 mA, Waterproof: IP65.
User manual & RaceStudio 3 software freely downloadable from AiM web site.

GPS09c Open and Pro Open

MORE INFO

Type	Description
GPS	Key features All the qualities of GPS09c are now achievable for those who already have a data acquisition device. GPS09c Open and Pro Open are available in three versions: CAN (GPS measures stream up to 25Hz, programmable CAN bus stream), Serial RS232 (NMEA standard messages stream up to 25Hz, programmable RS232 bus) and free wires. GPS 25 Hz, external power 5-15 V. The Pro version features the inertial platform (100 Hz internal 3 axis ±5G accelerometer + 3 axis gyro + 3 axis magnetometer).
